

Graduate Computing Orientation Scavenger Hunt

Quest

You and your party have been tasked with ~~exploring Queen's Campus~~ a reconnaissance mission by the Graduate Computing Society! The clues provided hint at certain locations and items that you must find around main campus. To complete each task, you must submit a photo of each riddle's answer to the **#Orientation** channel in the Graduate Computing **Discord**. Photos **MUST** contain at least **ONE** of the group members (though we highly encourage you to all be in the photos).

Please note: if you are unable to get to the location or item you think is the answer due to access restrictions, it's probably not the correct answer. In case a public building is unexpectedly closed, it's fine to just take a picture in front of it. Do not try to gain access to locked off areas, and please be mindful of others who may be working in or around these locations.

Clues

1. Thank you for coming, we're so glad that you're here!
The first place you must go to is certainly near
I'm quite tall and placed where you're sure to walk by
At a crossroads named perfectly for CompSci
2. I'm new and I'm old, and I'm welcome to all
If you're a creator or maker, then you'll have a ball
If you're not, well that's fine as I'm sure you'll pass through
Whether its tests or coffee, we've got something for you
3. I'm the place you might go to see Subaru passing by
If you see from above, then I might catch your eye!
Unseen from the street, as for that I'm too high
Take a picture out front, and point to the sky

4. I'm build like a dungeon and may seem quite small
But looks can deceive as I'm 6 floors in all
When you come visit me, you'll be under the ground
If its numbers you need, I have math help abound!

5. I'm the place you should go if it's knowledge you seek
I have rooms free for booking each day of the week

6. I'm lined and divided, surrounded by trees
You can play sports nearby or just shoot the breeze
To train or relax, here you can do both
My last hint for you: a famous French oath

7. If you've made it to here, then I'm really quite glad
I've got teaching and learning and Tim's to be had
There's no time to talk, I've got labs to be lead
If you look a bit closely, there are trees on my head

8. I once kept a great many dangers in store
Since 1982, that's been my purpose no more
Nowadays I'm a vault for things that are old
My treasures are truly a sight to behold!
